

PINGLE AWARDED MONROE COUNTY'S ROAD UPKEEP PRIZE

Named as Most Competent Highway Patrolman in County; Wins \$50

SPARTA, Wis. — L. J. Pingle, Monroe county road patrolman, was awarded first prize for the best kept road in division No. 5 of the contest for highway patrolmen of the state. The first prize amounted to \$50. The prizes were awarded at the annual road school held in Madison the past week. Mr. Pingle was present at the school. He is patrolman on section two of the state trunk highway 12 and 21 near Tomah. The prizes were given in recognition of the good work the patrolmen have done in maintaining the roads the past year.

A number of farmers from Monroe county will be in attendance at the farmers' programs that will be given during this week at the state agricultural fair at Madison. The nearly 100 farmers in attendance are Will Hanchett, Sparta; Will Brennan, Tomah; and County Agent E. L. Liddle. It is expected that about twenty will be there from this county. The theme of the discussions will be "Merchandizing the Farmer's Way Out."

The program for the road-upkeep Monroe county teachers' meeting to be held in Tomah, February 2 and 3, is as follows:

Friday Afternoon
1:30—Opening exercises given by the Tomah pupils.
2:00—Folk dances—Grade 2—Songs—Grade 3—Two part songs—Grade 4.
2:30—Welcome—Mayor Nelson.
3:00—Why We Have Schools—F. M. Bray, superintendent of the Eau Claire schools.
3:30—"The Schools and the State"—Nicholas Gunderson, superintendent of the Sparta schools.
4:00—Report of nominating committees.
4:30—Special conference—"Rural Teachers"—New Manual, Misses Olie Swanson and Bertha.
5:00—"State Graded School Teachers"—Miss Harriet Henson, county superintendent.
5:30—"City and Village Grades"—Miss Goodenough.
6:00—"High Schools"—Mr. Hughes, Sparta.
6:30—"High School Principals"—F. M. Bray.
7:00—Banquet—Mrs. L. J. Roberts, toastmistress.

Saturday Morning
9:30—Opening exercises. A demonstration of the summer course of music for the rural schools as outlined in the new manual, Miss Flaherty.
10:00—"Over Age Conditions in the Schools"—Supt. F. M. Bray.
10:30—"Report of the state convention"—Supt. E. J. McKean, delegate to the convention.
11:00—"The Beloved Daughter of the Community"—Ass. M. Royce, president, Platteville Normal.
11:30—"Community singing, led by Ass. M. Royce."
12:00—"As a Layman Sees the Schools"—Supt. Compton, Indian schools.
1:00—"The Teacher's Future, outside of School"—President Ass. M. Royce.

RAGTIME WONDERS ACCLAIMED BEST IN MUSICAL COMEDY

The commotion caused by audiences at the Majestic Theater Sunday in showing their appreciation for the "Little Miss Mix-Up" company was nothing short of spectacular. Those who saw it voted it "the best" in musical comedy shows. They clapped and clapped in their demand for encores of the musical numbers throughout the play and laughed and screamed at the comedy itself for "Little Miss Mix-Up" is a riot all the way through. Bert Smith, manager of the company has brought to La Crosse an unusual variety of the biggest treat they have had in many years. Comparative harmony reigned in the Hubbard household until Mrs. Hubbard's Aunt Celia and Uncle John came to visit for a week. Aunt Celia has ideas all her own about a husband's place in life and endeavors to teach her niece a thing or two. She starts everything and everybody moving and keeps them moving. Billy Malone cast as Maggie, the cook, kept the audience convulsed with laughter. She Hale, as Mary, who causes all the mix-up, did full justice to her part.

The Sousa Band, at the close of the performance was sidestepping. Joe Marion officiated as the director and other members of the cast and chorus played on various instruments. On Monday, Tuesday and Wednesday of this week Bert Smith's company puts on "Forty-five Minutes From Broadway."

CAPITOL BUILT OVER ANCIENT FOREST

During the operation of excavating for the foundation of a large building at Washington, D. C., evidences were discovered of the existence of an ancient forest. At a depth of about twenty-five feet below the street level the excavation disclosed a layer of black swamp mud, containing large quantities of wood, tree trunks and stumps. Some of the stumps are of great size, a few of them reaching a diameter of nine or ten feet. Much of the wood is well preserved, showing clearly the woody structure and the external markings of the bark. A preliminary examination indicates that one of the more common trees of this ancient swamp was cypress.

Glen Curries, famous airplane builder, started his business career as a bicycle repair man.

BRANDED BECAUSE OF BEAUTY?

Rosabella Garrison, 15, Laporte, Ind., shown here, declares a masked man entered her home and branded her arm with a hot iron. The man, she says, confessed in a note he had committed the outrage at the request of a New York actress, jealous of Miss Garrison's beauty.

THE FRENCH WILL GO TO BERLIN

BY FRANK H. SIMONDS

WASHINGTON, D. C.—The French will now go to Berlin, unless there is a swift and unexpected crumbling of German resistance. They will also go to Hamburg and to Bremen, which means that they will complete their strangle hold upon the economic system of Germany. The decision to send to the Ruhr General Weizsacker, Marshal Foch's ablest lieutenant, the man who blocked the Russian drive on Warsaw, is a final evidence of the fashion in which the French government now means to fight the new war.

From the outset of the present crisis there have been many Frenchmen who have believed that the march on Berlin would be wiser than the attempt to occupy the Ruhr, but the one has not excluded the other possibility and now that German resistance has taken its surprising development and this resistance is being directed from Berlin, French action is not difficult to forecast.

To go to Berlin, however, means the mobilization of a portion of the French army; it will be necessary to call from one to three classes to the colors and this call cannot be issued until such time as French public opinion is unmistakably roused to support such a drastic course. But no one can read the dispatches which are now coming from Paris without perceiving that public opinion is rapidly reaching the necessary pitch there.

The French view is obviously that German resistance is based not upon any mistaken hope that Germany alone can long hold out without capitulating a national prostration, but rather upon the calculation that the resistance, hopeless in itself, will in a brief time, lead to intervention by some other nations and particularly by the United States. Mr. Hughes' New Haven speech and the sudden recall of the American troops on the Rhine have been interpreted by Germans as a promise of American action.

Meanwhile the French strategy is plain. While the resistance which has come was not expected, on the other hand French plans were made with a full appreciation that it might arrive. France can mobilize with little delay all the railway men necessary to run such of the Ruhr railways as may be necessary. Her problem will not be to find coal for all of Germany. What she must do is to insure the mining of enough to meet the needs in the occupied area, in the Ruhr and in France and Italy.

Every arrangement has been made for the provision of money. This was done very long ago and in all probability new currency will be put in circulation without delay. Provision has

tions or still relying upon this hope, they will stick to their passive resistance and then we shall see a complete or partial French mobilization and, if there is a new mobilization, the French troops will not be demobilized until they have entered Berlin.

It is a great mistake now to believe for a moment that there is anything short of German surrender or forcible intervention by the United States and Great Britain, which can move the French to abandon their campaign. Matters have gone so far now that no international conference and no friendly suggestion could command even a respectful hearing in Paris. If the French fail now either to obtain a German surrender or a complete dislocation of Germany, politically and economically, they will have lost the war just as completely as if they had been overwhelmed at the Marne.

Every day and every hour of German resistance now intensifies French determination and increases the tenseness of the whole situation. Just as long as the German resistance is passive there will be no actual conflict, but it is manifest that there are limits beyond which passive resistance cannot be maintained and there is a point at which conflict will be inevitable. From now on the world is sure to see rapidly growing demand in Paris that the French action be carried to the German capital and what was not done in 1918 shall be done now in 1923, namely the struggle ended by the occupation of the enemy capital.

Weizsacker is by all odds the best of the younger French generals. He is, perhaps, the only man universally regarded as adequate for the tremendous task. His appointment will give confidence to the French and the friends of France, who have speculated upon the soldier who would be selected for the major task. Degoutte, whom Americans know, since he commanded the army in which our Second division fought at Belleau Woods and

in the offensive about Chateau Thierry in July, 1918, hardly measures up to the emergency which is now preparing. But Weizsacker was at Foch's elbow from the beginning of the world war to the end and his achievement in Poland was little short of marvelous. His appearance now is one of the most significant details, since it indicates the extent to which France is now prepared to go.

Resistance in the Ruhr will mean the occupation of Berlin. This is the fact which must now be accepted and the occupation of Berlin will mean the prostration of Germany, with accompanying economic and not impossible political disintegration. (Copyright, 1923, by McClure Newspaper Syndicate).

MARQUETTE DEBATES DEFEAT KALAMAZOO
—MILWAUKEE.—Marquette University's debating team won from Kalamazoo college at Kalamazoo last week on the question of cancelling the United States loan made to the allies during the World War. Marquette debaters opposed the cancellation of the debts. They won the right to debate the Detroit team by defeating Campion college in the series of debates among Jesuit schools in the middle west.

SAYS CHURCH MUST MAKE CONVERTS IF IT IS TO SUCCEED

Methodist Board Urges Two Months of Aggressive Evangelistic Effort Each Year

CHICAGO.—Money is but a means to an end, and the church which fails to secure converts to Christ, fights a losing battle, the board of bishops of the Methodist Episcopal church says in a statement.

For the first time in the history of Methodism the board of bishops suggests that at least "two months out of every year" should be kept comparatively free for aggressive evangelistic efforts.

The thirty-six bishops comprising the board in the statement, say: "Without budgets and maintained. It should, however, never be overlooked that money is but a means to an end. The primary emphasis is and must always be upon the culture of the

Christian life, the spread of Christian principles, and on the development of a vital, intelligent, spiritual life.

"The church which fails to secure converts to Christ fights a losing battle. More than ever before there is need of men who have the passion of the Master for the lives of men and who put the main emphasis upon the forces which develop them."

"We express the judgment that at least two months out of every year should be kept comparatively free for aggressive evangelistic effort. These efforts should challenge people, not only to church membership and social activity, but to that conversion to God which will result in the soundest, ethical life and in a fully-rounded New Testament type of conduct."

Avoid Harmful Grit

Pepsodent cures the film and removes it without harmful scouring. Its polishing agent is far softer than enamel. Never use a film combant which contains harsh grit.

She Found The way to prettier teeth

Millions of women, the world over, now brush teeth this new way. You see the results everywhere today—see them in prettier teeth.

If you still use old methods, won't you let us show you what this new way means to you?

Combats the film
Film is what makes teeth dingy—that viscous film you feel. It clings to teeth, enters crevices and stays. Food stains, etc., discolor it. Then it forms cloudy coats. Tartar is based on film.
Old-time tooth pastes could not effectively combat it. So beautiful teeth were seen less often than now. Teeth troubles, caused by film, came to nearly everybody.

Ways to fight it
Nearly everybody suffered from that film. So dental science sought ways to combat it. After long research, two ways were discovered. One acts to curdle film, one to remove it, and without any harmful scouring.
Able authorities proved those ways effective. Then a new-type tooth paste was created, based on modern research. Those two great film "combats" were embodied in it.

PAT. OFF.

REG. U.S.

Pepsodent

The New-Day Dentifrice

A scientific tooth paste based on modern research, free from harmful grit. Now advised by leading dentists the world over.

Film holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Millions use it
Careful people of some 50 nations now use Pepsodent, largely by dental advice. It is bringing a new dental era.
Learn how much you need it. Ask for this ten-day test. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.
Those are benefits you cannot afford to miss. Cut out the coupon now.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c.

Women know what they want —and get it

A woman buys many different food products, dozens of fabrics and articles of apparel, shoes, things for the home, toilet preparations—quite probably in a year she makes a thousand purchases. Personally to judge the quality of each, she would need to be a chemist, an engineer, a metallurgist and a good many other things.

So, given the choice, of course she buys the goods she knows in preference to those she does not know. And she is going to have that choice for a good many years. She is boss.

Manufacturers who want to work for her must realize this:—They must put in their application at once; convince her of their intention and ability to give her merchandise of known value; and then live up to the standard.

For she is a just but ruthless boss. She neither forgets nor forgives. She rewards loyal service with loyalty, but her condemnation of broken faith is final.

Her favor is the sunlight of success; her indifference, the outer darkness.

TOMAH MARKSMEN WIN THE GRAHAM TROPHY FOR 128TH

Pistol Contest Participated in by 75 Companies of the National Guard

TOMAH, Wis.—It is fitting that the Graham trophy, honoring the late Colonel George Graham of this city, should be won by Headquarters company 128th Infantry of Tomah. The competition for the greatest proficiency in pistol marksmanship was participated in by seventy-five competing Wisconsin companies of the national guard. In the competition for the Graham trophy, the Tomah company qualified more experts, sharpshooters and marksmen than all the other competing companies combined.

Captain Edward Van Wie had the highest score, 225, as pistol expert. First sergeant H. E. Lord and Lieutenant Arnold Schuler had high scores as sharpshooters—236 and 226. Corporal Archie Benjamin and Private Albert L. Van Wie had high scores as pistol men, 250 and 255. Headquarters men, who had the highest individual scores in the three pistol classes, are Captain Van Wie, sergeant Lord and Corporal A. Benjamin. Although the company was ineligible to compete in rifle marksmanship, it was eligible to compete for individual scores, and the following qualified in the various classes: Experts, Corporal Arthur W. Smith, high score 217, sharpshooters, High score, Master Sergeant Edward Wilson, score 281. The Graham trophy is the second trophy won in the past two years by the Tomah company. The trophy for gallery shooting team was won two years ago by them.

The Middle West rifle company of Wisconsin has added to its recent purchases the plant of the Kendall Electric company and will supply that plant with electricity in the future.

Funeral services for Thomas W. Smith were held in this city on Jan. 27 from the family residence. The deceased was born in Milwaukee April 1, 1861, and came when a young man to this city where he lived since. He is survived by his widow and two children.

AMERICAN EXPLORER FINDS INDIAN TRIBE RULED BY A WOMAN

Dr. Rice in Lecture in Boston Tells of Tribe of Self-Supportive Women

BOSTON.—An Indian tribe of South America ruled entirely by women was described recently by Dr. A. Hamilton Rice in a lecture before the Lowell Institute. The tribe lives on the Ica river, a branch of the upper Amazon where Dr. Rice went on a trip of exploration.

The women of the tribe appeared to be permanent residents of the village, Dr. Rice said, while the men who were there came mostly from tribes along the river. The ancient Amazonian legend, of a tribe of self-supportive women, visited from time to time by men of other tribes, came to the explorer's mind with his discovery, he said, and indicated to him that he might have found the basis for the legend.

During his lecture, Dr. Rice was asked if he believed that former President Roosevelt's life had been shortened by the effects of his South African journey. He replied: "Yes, he died from the effects of his journey to South Africa. There was not a doctor in New York who knew what ailed him."

The object of Dr. Rice's exploration was mainly to determine the character of the country surrounding the Ica, Mesaya and Iquitos rivers and to identify these rivers.

At San Martin he found 800 persons served by three priests who became convinced that the natives were suffering from disease. Dr. Rice's examinations developed that they carried the tertian form of malarial parasite and the epidemic skin disease known as pinta, a particularly disgusting form. Daily Dr. Rice was begged for relief by the sufferers.

The old La Sal-Chalana trail across the Vega in the rainy season caused Dr. Rice's party much difficulty. For nearly 15 miles the trail crosses a chain of swamps and quagmires through which the natives of the par-

TWO TAX BILLS SCHEDULED FOR INTRODUCTION TUESDAY IN WISCONSIN LEGISLATURE

MADISON.—By The Associated Press.—The two principal tax bills to be brought before the Wisconsin legislature, will probably be introduced Tuesday, one in the senate and the other in the assembly. These measures differ fundamentally in the means they propose to raise revenue from incomes, and represent the divergent tax views of the legislators in the La Follette-Blaine group.

Senator Herman J. Severson, Iola, who will introduce the senate bill, and Speaker John T. Dahl, Barron, who will bring in the assembly measure, both announced Monday that they intended to have their proposals ready for introduction at Tuesday's session. After introduction they will be referred to committees and scheduled for hearing.

A surtax on higher incomes is proposed by the Severson bill. In many respects similar to his surtax measures in two previous sessions, Speaker Dahl in his bill asks for marked increases in rates on all incomes, repeal of the personal property offset, and reapportionment of the returns from the income tax.

Governor Blaine is supporting neither measure. When unable to get agreement on one bill in conference with the legislators of his group, the governor gave up his announced intention to have a single administration tax bill. He now is believed to be willing to sign either of the proposals.

Both of the tax bills proposed by the administration men will probably be able to get through the assembly but it is a question, senators say, whether either could get through the senate with the three socialists holding control.

The socialists say that unless the two proposed tax bills meet their demands they will propose a general measure of their own. They are demanding that action on the bill to repeal the sequey clause be withheld until they see what variety of general proposal is offered.

GRAPE FRUIT MADE SAFE FOR THE CONSUMER

ART EXHIBIT WILL BE OPEN BY THURSDAY

Private View For Members is Scheduled for Wednesday

The Art association plans to have its big exhibit open to the public on Thursday. There will be a private showing for members of the association on Wednesday evening. The exhibit is most interesting. The exhibit is most interesting.

TUESDAY PROGRAM FOR ASSOCIATION "VISITING WEEK"

Tuesday's program of activities at the Y. W. C. A. during the association's "visiting week" to which the public is invited, will include the following clubs, classes and committee meetings:

7:30 - Vocational gym.

8:30 - Model Normal school and Washington school Girl Reserves.

7:00 - Happy Hearts Ukulele club.

7:15 - Interpretive dancing.

8:15 - Happy Hearts basketball.

Committee meetings 7:30 - Kratch.

Will Candy company, Nelson Clothing company and Paper Box company.

FIRE FIGHTERS ARE STALLED IN ELEVATOR

NEW YORK.—A score of firemen rushing to fight a menacing blaze on the twenty-seventh floor of the Whitehall building at the Battery, were stalled in two of the elevators Monday and forced to smash doors to escape. Additional elevators were pressed into service and the firemen, attaching their hoses to stand pipes, got the blaze under control after an hour's work. The fire was confined to three offices.

One of the elevators was stalled between the 20 and 21 floors and the other between the 16 and 17.

THREE-PIECE SUIT

A three-piece jersey suit for spring comes in a warm shade of tan and is trimmed with bands of crepe de chine of the same color and with yarn embroidery in tan. It has a sleeveless bodice and a short, reaching only to the waistline and having very full.

BINDINGS TRIM

Bindings of silk and ribbon are used on folds and bands on the new gowns and suits for spring. Often it is the only adornment on decoration.

TAN AND CORAL

A gown of tan georgette is given an original touch by bands of self-colored embroidery and trimmings of coral chenille. A coral hat completes the costume.

SLEEVES? ALL OR NONE

Sleeves to the wrists or none at all. That's the fashion. It happens because we follow French styles—but are always six months behind.

Paris discarded short sleeves last spring, but kept the sleeveless bodice for summer comfort.

The sleeveless bodice is being worn here now.

Paris openings in August, showing full length sleeves, are just beginning to have their effect on American styles.

So long sleeves will be established firmly here by spring. In good time to stay with us all summer.

Of course, the thing to do is to demand long sleeves now and then and to see what summer brings from Paris. It's sure to be nearer comfort than long, tight sleeves, frilling out around the wrists.

MARRIAGE A LA MODE

In Tibet a marriage ceremony is not completed until the couple have lived together for three days. Wife murder, which is common among the Tibetans, is not a capital offense in their country, being punishable only by a fine and payment of funeral expenses. The murderer, however, may be imprisoned if he is dilatory as to these details.

Such is Fame

A famous bishop was waiting for his train in an out-of-the-way village when he saw a stranger cycling his bicycle. Fearing he might be cutting a slight acquaintance, the bishop nodded to the man. "Excuse me, I'm a stranger here," said the cyclist. "I'm a stranger here," said the cyclist.

Shark Fishing a Profitable Industry

In the opinion of some of the officials of the bureau of fisheries, shark fishing may be made a profitable industry. The skin of these fish is good for use in place of leather and in many instances it answers all purposes in this capacity. The fins are regarded as a delicacy in many countries of the Orient and command a good price if properly prepared. The rejected flesh makes an excellent fertilizer.

Rheumatic pain—relief!

Congestion, inflamed tissues—then persistent pain. Apply Sloan's to break up congestion, draw out inflammation—and stop that pain!

Sloan's Liniment

HATS LIKE THESE TO BE STYLE NEXT SPRING

These two hats traveled south recently in the trunk of a New York debutante. They are the type we will be buying next spring. The trimmed model is a combination of taffeta and straw, with yarn embroidery in brilliant colors. Folds of figured ribbon, artfully wrought into a winged effect, trim the turban and provide an excellent place for the parking of two highly decorative hatpins.

GOOD MANNERS

Brusque contradictions or interruptions are both rude and unnecessary in a social conversation and they usually can be topped down, so as not to wound, even where unavoidable in a talk of a business nature. Dissent can be expressed in some such way as, "Quite true, but—" An interruption, if it cannot be helped, should be accompanied by a word of apology.

SIMPLICITY SOUGHT FOR THESE DAYS

Elegant simplicity is the effect everybody is seeking these days. Margaret Hennessy, New York debutante, achieves it in this frock in which the richness of brocade and the delicacy of chiffon are joined. The brocade headband and pumps are pleasing accessories.

TRINITY DRAMATIC CLUB SCORES HIT ON SUNDAY NIGHT

The play "It Pays to Advertise" was presented to a packed house by the Trinity Dramatic club on Sunday night. It was proclaimed by all who saw it to be a wonderful success, and hundreds had to be turned away from the doors.

The play is to be repeated on Tuesday evening. The cast of characters follows:

Mary Grayson, stenographer — Mary Johnson, butler — Frank Smith

Comtesse de Blouin, Ida Wittinger

Rodney Martin — Andrew Hoffman

Cyrus Martin — Ralph Rudolph

Ambrose Peale — Jos. Wester

Marie, maid — Eva Weigel

William Smith — Jos. Weigel

Donald McChesney — Harry Wittinger

Miss Burke — Pauline Knoll

Ellery Clark — Leonard Schneberger

George Bronson — Louis Giles

ST. VALENTINE SALAD

2 cups white cherries (canned). 3 pimientos (canned red peppers). 4 slices canned pineapple. 3 grapefruit. 1 cup well-seasoned mayonnaise. 1/2 cup cream beaten until stiff. 1 head lettuce or escarole. Remove pits from cherries; cut the pimientos into small pieces; cut pineapple into dice, and remove sections from grapefruit, cutting them into shreds. Add a sprinkling of salt and thoroughly chill the fruit. When ready to serve mix with the mayonnaise and cream. Into the pastry hearts place three heart leaves of lettuce or escarole and on these place a spoonful of fruit salad. Dust with paprika and serve. For the pastry hearts use: 1/2 cups flour. 1/2 teaspoon salt. 1 egg water. 1 cup grated cheese mixed with

ST. VALENTINE SALAD

1/4 teaspoon salt and a few grains of cayenne. 1/4 cup lard. 1/4 cup butter. Mix flour, salt and lard together. Moisten to a stiff dough with the ice water. Take onto a floured board; roll out, spread with the butter, sprinkle with flour, fold into three folds and chill. Roll out to one-fourth inch in thickness. Sprinkle with cheese; fold, roll out and repeat twice, using a third of the cheese each time. Again chill, then roll to one-fourth inch in thickness, and with a heart-shaped cutter, cut as many hearts as desired for individual service. With a pointed knife or another smaller cutter remove center, leaving a wall half an inch thick. Bake these in a hot oven until delicately browned, and well risen, about fifteen minutes. Cool and use as directed above.

HAPPY HEARTS OF GAUGE CO. MEET AT "Y"

Fifty in Monthly Social Session of Y. W. C. A. Club

FIFTY "Happy Hearts" from the National Gauge enjoyed a jolly party in the hospitable rooms at the Y. W. C. A. on Saturday evening. "The Happy Hearts" is one of the girls' clubs of the "Y," which meets for a social session monthly. Its slogan is: "All for one and one for all," and its official song is: "How do you like us, Nobody like us." We are the girls from the National Gauge.

Always a "winning." Always a "feeling fine." Pink candles and roses decorated the small tables about the dining room, and a buffet lunch of oyster stew, pie and coffee was served.

The Ukulele Club of the National Gauge furnished music, and the club sang several original songs to Miss Kathryn Myers, social worker for the Gauge, to Mrs. Charles Cone of the "Y," and to Miss Cora Bangsberg, coach of the Girl Reserves.

Miss Theresa Severson presided at the business meeting, held before the social session. Miss Gladys Mallory, as Secretary gave the last minutes, and Miss Geneva Johnson gave the report of the committee on points to be earned to win a Y. W. C. A. pin. It was suggested that one thousand points should be the price of the pin and that they should be earned in other ways, service to employer, general personal conduct, church attendance, reading of books and the memorizing of poems.

Next month the meeting will take the form of a sewing party and Miss Nora Bents will read parts of "Huckleberry Finn."

Germs look sad and cross the street before passing a house cleaned with Blue Devil.—Advertisement.

SILK AND LACE

A hat of black shirred silk, with a full crown and a narrow brim is trimmed with a huge rosette of lace on the right side.

What Are False Teeth?

An American gentleman traveling through Russia had the misfortune to be robbed, and among the articles taken was a set of false teeth for which he had constant use. He had a great deal of valuable material with him, but he had taken the precaution of having it insured before he started off on his trip. He immediately put in a claim and one of the items was \$750 for the false teeth which the officials of the company regarded as a trifle high and proceeded to contest the item. In court it was decided that as they were not toilet articles and not scientific articles, they were not covered by the policy.

Get Sun-Maids —Always Good

To insist upon Sun-Maids is to get the kind of raisins that you know are good. Suggest you try Sun-Maid Seeded. They are washed, seeded, sterilized and packed, while still hot from the sterilizers, in new, clean cartons. Made from finest California table grapes.

Sun-Maid Raisins should cost you no more than the following prices: Seeded (in 15 oz. blue bags)—20c. Seeded (in 15 oz. red bags)—18c. Seeded or Seedless (12 oz.)—15c. Seeded, in tin (12 oz.)—20c. Seeded, in tin (15 oz.)—15c. Your grocer has them for you.

COMMISSION WILL CONTROL THE JUNIOR WELTER TITLE BELT

To Issue Deed to Rightful Possessor After it Has Been Acquired

MILWAUKEE, Wis.—The Junior welterweight boxing championship belt will hereafter be under the supervision of a commission consisting of three members, the commission to issue a deed to the rightful possessor upon acquiring the title.

This was decided upon today by Michael Collins, editor of the Milwaukee sporting publication, and Billy Mitchell, brother and manager of Pinky Mitchell, Milwaukee, the present title holder. The emblem was awarded Mitchell through a contest conducted by Collins' paper.

Judge A. J. Hedding of the civil court, Milwaukee, father of the Wisconsin boxing laws, Judge John C. Karel, of the probate court, Milwaukee and M. L. Annenberg, New York, make up the commission.

The commission will require that the belt be contested for every six months provided a challenger has that body's approval.

HUTTON RESIGNS AS HEAD OF WISCONSIN ANTI-SALOON LEAGUE

Badger Has Been Named Chief of National Law Enforcement Educational Body

MADISON, Wis.—R. P. Hutton, superintendent of the Wisconsin Anti-Saloon League for the past five years, has resigned his position to the headquarters committee of that body Monday, effective February 15. He is leaving the state to take the national superintendency of the American Bond, an educational organization for the promotion of law observance.

Since taking over the duties of the Wisconsin Anti-Saloon League, Mr. Hutton has been in the midst of the political strife of the state, and has directed the destinies of the days through two political campaigns in Wisconsin. It was during his regime that prohibition forces gained control of the legislature and that they held a majority in the state's delegation to Congress.

Mr. Hutton's first work in the state was done as assistant superintendent of the league from 1904 to 1909 when he entered anti-saloon work after graduation from Lawrence college. He then went to West Virginia and was later transferred to Oregon as state superintendent, returning here in 1917.

The headquarters committee of the Anti-Saloon League will meet in Milwaukee probably February 6 to consider a successor to Mr. Hutton. It is believed that a former superintendent of the league, now occupying a pulpit in Iowa will be recommended by the national league to succeed the present superintendent.

According to Mr. Hutton, a leader among the dry forces will come to direct the prohibition activities in the state because of the importance attached to the Wisconsin situation.

FOX BREEDERS OF STATE ORGANIZE

Seek Legislation to Keep Poor Grades of Foxes Out of the State

MILWAUKEE, Wis.—Fox breeders of Wisconsin organized into the Wisconsin Fox Breeders' association last week. Dr. J. J. O'Reilly, Merrill, Wis., was elected the first president of the association. Other officers are C. E. Boyette, Wausau, vice president; Dr. Otto Stader, Oconomowoc, secretary and T. W. Mecklenburg, directors. Directors include the officers and C. Nieman, Hamburg and F. A. Eberlein, Shawano.

More than \$3,000,000 is already invested in the fox industry in Wisconsin," Dr. O'Reilly said. "This business some day will be ranked as one of Wisconsin's greatest industries because foxes and all fur-bearing animals, for that matter, thrive better in Wisconsin than in any other state due to favorable climatic conditions."

Anticipating the future of the fox industry the organization was summarized to standardize prices for pelts and obtain protective legislation to keep poorer grades of foxes from coming into the state. Headquarters of the association will be in Milwaukee.

SKAT TOURNAMENT WON BY GEORGE LINKER SUNDAY

George Linker won first prize in the semi-monthly skat tournament held at Pioneer hall Sunday afternoon. Linker took second in the tournament two weeks ago.

Charles Schubert was second, Charles Preutz, third, E. Wenzel, fourth, and H. Klein, fifth, in the tournament Sunday.

INDIANAPOLIS TO LOSE RACE?
INDIANAPOLIS, Ind.—Officials of the Indianapolis Motor Speedway indicated that the annual 500 mile race would be moved to another city if the state legislature passed a bill now pending to prohibit the race Memorial day.

BASKET BALL QUIZ

BALL IN WRONG BASKET

If, when two players jump for the ball on a toss-up, one of the players bails the ball into the opponent's goal, what is the ruling?

It is an unfortunate happening but there can be no ruling other than that goal counts for the team into whose basket the ball was batted.

HELD BALL
Is it possible for a held ball to be any way construed as a foul on any one of the two players holding the ball? How is the ball put in play after the referee rules held ball?

No foul is called on either of the two players who were in contact with the ball. It is put in play by being tossed up at the place held; with the two players who were in contact with the ball doing the jumping. The only exception to this procedure is when the ball is held in the free throw line, it then being put in play at the free throw line in the same manner as at center.

EXTRA PERIOD
Is it permissible for teams in a game ending with a tie score to agree

to continue play without regard to time until the tie is broken? Such agreements have been made between teams in games ending with a tie score, but such a procedure is contrary to the rules. In case of a tie score, the rules call for periods of five minutes of play, with the ball being put in play at the center at the expiration of each extra period until the tie is broken. This makes the action a trifle different than proceeding to break the tie without regard to time.

SPORT BRIEFS

LOS ANGELES.—Gene Sarazen and Jack Huthinson defeated Jack Neville and Fred Wright, California golfers seven and six, in a 36 hole exhibition match.

SAN ANTONIO, Tex.—Walter Hagen, British open champion, defeated Bill Melhorn by one stroke in the play off of the Texas open golf championship.

a player, he will probably ask for something worth while from the club that seeks the National's star shortstop.

ROGER PECKINPAUGH

DISPOSITION OF THE GAME WORLD'S SERIES MONEY LEFT TO DONORS SAYS COMMANDER

CINCINNATI, Ohio.—Final disposition of the money received by the disabled American veterans from the proceeds of the tie game of the world's series in New York last year, will be left to its donors, Captain O. Hamilton Cook, commander of the veterans, said following the adjournment of the meeting here of the national executive committee.

Commander Cook said he would see Judge Landis, baseball commissioner, and discuss with him what the intentions of the donors were in giving approximately \$20,000 to the organization.

Resolutions demanding the immediate consideration and passage of the Sweet, Bursum and Knutson bills, which would aid veterans and disabled veterans of the world war, were unanimously adopted by the executive officers. They also went on record as favoring a more liberal basic pay for nurses in government hospitals so as to attract more competent nurses into the service. It was said the nurses now receive a salary of \$30 a month.

A national orphanage bill for children of all deceased veterans of the great war will be introduced in congress next week, it was said.

FRANK CHANCE WOULD LIKE TO GET ROGER PECKINPAUGH FOR RED SOX

BOSTON, Mass.—Frank Chance, during his recent visit to Boston, intimated that he would like to put over a deal with Washington for Roger Peckinpaugh.

It was when Chance managed the New York club that Peck came into his own as one of the greatest shortstops in the majors. Chance has always been very partial to Peck—regards him as a great player, and would like to have him in the Red Sox lineup to build around.

Chance realizes that Peck is no longer a youngster, yet he sees no reason why Roger shouldn't be good for four or five more years. A manager can build an infield around a good shortstop, but with a weak man at that position he is decidedly up against it.

Peck was captain under Chance during his managerial reign in New York. When Chance resigned, Peck finished out the season in charge of the Yankees.

Last season Peck got away to a poor start in Washington and really never hit his stride for any great length of time during the entire season.

The fans there had expected great things from the former New York star, and when he failed to show he was showered with many wreaths of wild razzberries.

Peck is no big favorite in Washington and for that reason Chance may be able to interest Owner Griffith in a deal.

ATTENTION, FAIR SEX! HERE IS THE LATEST FAD TO REDUCE WEIGHT

ST. PETERSBURG, Fla.—Society matrons and debutantes who have been tipping the scales beyond their favorite mark have discovered the best medium for reducing weight—and their discovery has nothing to do with rolling over grassy slopes, electric baths, physical torture and all that sort of stuff. They have learned that a game of horse shoes, pitched every day, helps remove the enlarged waistline and actually reduces.

Two years ago, very few women, if any, ever attempted to play "barnyard golf," but today the Williams Park lanes here are thronged with members of the alleged weaker sex who tramp the 40-foot distance between stakes, bending over to pick up their own horse shoes, keeping at it through the daylight hours.

Twelve women have developed the art of tossing the iron footwear so that they can make ringers with every other pitch, and have entered in the national meet to be held here during the week of February 19, when the United States barnyard golf championship will be at stake.

There are close to 300 women members of the horse shoe pitching club in St. Petersburg.

OHIO STATE AND PURPLE CAGERS BATTLE TONIGHT

CHICAGO, Ill.—Two basketball teams of about equal weight, speed, and experience will clash in Evansston Monday night when Northwestern meets Ohio State in the first home game for the Purple for three weeks. The Buckeyes lost to Coach Kent's five, 26 to 24, on their home floor and are intent on reversing the defeat.

Although humbled by Iowa Saturday, the Purple is confident of a victory tonight. Capt. McKenzie is back in form after a brief illness and will lead his team. Bob Blythe, a reserve forward, who has been laboring with a broken hand, was able to play against the Hawks and probably will be used tonight to relieve either Vernon Franzen or Walt Stegman.

Matuseff and Blair will hold the forward posts for Ohio, with either Wilson or Michaels at center. Miner, Klein, Capt. Robin, and Taylor are guards on the Buckeye squad. The general teamwork of the invaders has improved since the first game, and this should make Ohio dangerous.

A capacity crowd will witness the game, according to athletic officials.

SATURDAY BASKETBALL RESULTS

At Iowa City, Iowa—Iowa, 29; Northwestern 22.
At Chicago—Purdue 32; University of Chicago 23.
At Ann Arbor—University of Michigan 49; Ohio State 25.
At Milwaukee—Marquette University 21; Carroll College 18.
At Prairie du Chien—Campion College 15; Columbia College 14.

ASHLAND MAN WINNER IN NORTHERN WISCONSIN CONTEST

GREEN BAY.—J. H. Keating of Ashland was announced Monday as the winner of the contest being conducted by the Northern Wisconsin Resorts Association to secure a name for the association, which is campaigning for an advertising fund of \$50,000 to "sell northern Wisconsin to the summer tourists." The winning title was "The Northern Wisconsin Association."

Mayne L. Summers, Green Bay and W. K. Currie, Butternut, won second and third places respectively.

REPUBLIC FOR RHINELAND? BERLIN.—The government claims to be in possession of copies of printed placards, being distributed throughout the Rhineland containing the proclamation of a Rhineland republic for February 1.

Team	Won	Lost
Iowa	4	0
Wisconsin	4	0
Michigan	4	1
Purdue	2	1
Illinois	2	2
Northwestern	2	3
Chicago	1	3
Minnesota	0	2
Indiana	0	2
Ohio State	0	5

Roy McWhirter of Chicago, national outdoor skating champion, is already going at top speed and confidently expects to shatter some of the skating records during the winter.

MILWAUKEE TEAMS HOLDING LEAD AT STATE PIN MEET

Cream City Bowlers Hold First Five Places in all Events

GREEN BAY Wis.—Milwaukee bowlers captured all five places in the three events in the Wisconsin State Bowling tournament on the Community alleys here. Sunday night, Schaller and Bartz five of Milwaukee, winning the five man event with a high score of the four days bowling of 2,835.

P. Schneider and H. Schneider, Milwaukee, took first place in the two man event, rolling 1,218, while Harry Nolte, veteran Cream City nine smasher, went into the lead in the singles with a total of 665.

Green Bay bowlers will occupy the alleys at Monday night's session. The standings of the five highest teams in each event follow:

Five Man
Schaller and Bartz, Milwaukee, 2,835.
Acme Patterns, Milwaukee 2,754.
Weisaupt Shoes, Milwaukee 2,732.
Bert Bagler's, Milwaukee 2,712.
Bartels and Grundmann, Milwaukee 2,704.

Doubles
P. Schneider-H. Schneider, Milwaukee 1,218.
F. Samong-W. Stiere, Milwaukee, 1,187.
B. Gutman-R. Bartsch, Milwaukee, 1,184.
F. Stray-B. Kissner, Milwaukee 1,157.
F. Kolacke-J. Jacobso, Milwaukee, 1,155.

Singles
H. Nolte, Milwaukee 665.
J. Reidy, Milwaukee 661.
H. Hicks, Milwaukee 640.
F. Drolsbagen, Milwaukee 634.
R. Berzman Milwaukee 627.

BULLSEYES of BASEBALL

By DILLY EVANS, SHORTEST HOME RUN I EVER SAW

As it hit the ground it took a reverse English and bounded back at Wakefield, who tried to get the ball. He claimed he didn't touch it, but Hurst insisted he did. This, of course, made it a fair ball.

The ball, after eluding Wakefield, rolled to the stand. Wakefield at first argued the matter at length with Hurst, and then finally decided to get the ball. Two were out at the time and the batter and baserunners kept going. I recall that when the ball struck the ground the batter was well on his way to second, so high had it been hit.

By the time it became apparent to the Washington club that Hurst had ruled it a fair ball, everybody had scored.

Then the argument broke out again with Hurst playing the leading role. It certainly was the shortest circuit swat I ever saw—for length, not altitude.

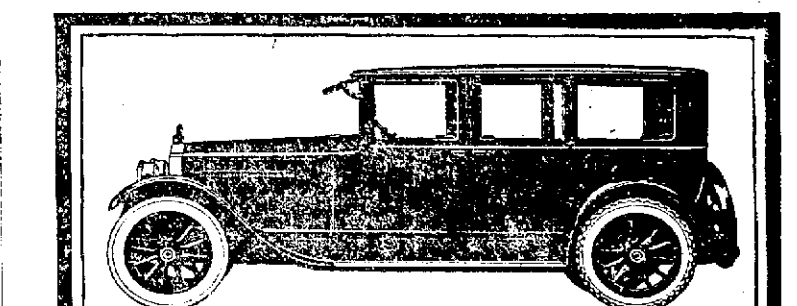

Next—The most amusing situation I ever saw.

FRIDAY BASKETBALL

At Monroe, Wis.—Beloit Fairies 24; Monroe Badgers 14.
At Racine—Racine High 24; Janesville 19.
At Palmyra 25; Hartland 14.
At Freeport 29; Beloit 19.
At Elkhorn 15; Lake Geneva 9.

SATURDAY HOCKEY

At Pittsburgh—Pittsburgh 2; Milwaukee 1.
At Cleveland—Eveloch 2; Cleveland 1.
At Ithaca, N. Y.—Massachusetts Aggies 3; Cornell 2.

Wide plate glass windows and narrow uprights in the Packard Single-Six Sedan for five passengers, insure unobstructed vision in all directions.

The Packard Single-Six couples low running expense with extraordinary performance over a far longer period. It is enabling many to realize their ambition to own a fine car, on a basis of genuine economy.

UNPROTECTED GRADE CROSSINGS CLAIMED MANY LIVES IN 1922

Caused Twice as Many Accidents as Occurred on Crossings Equipped With Warnings

RAIL BODY REPORTS THIRTY DEAD AND 121 INJURED

Recommends Removal of Bill Boards at Crossings

MADISON, Wis. — Unprotected grade crossings claimed more than twice as many lives during the fiscal year of 1921-1922 than those equipped with bells, flags or gates according to a summary of accidents announced by the railroad commission Monday.

Unprotected crossings caused 30 deaths and injuries to 121 in the 12 months ending December 31, 1922. The year previous saw a larger number of grade crossing victims with a total of 62 killed and 199 hurt. Unprotected crossings were the scene of 44 of the killings during that period.

The commission points out that with traffic increasing at a fast rate, collisions between vehicles and trains are becoming numerous. The ideal, elimination of all grade crossings, is impossible for the near future and can only be brought about in a gradual manner.

"There is a move that can be made which will cost nobody anything and which will assist materially in reducing the hazards of travel on our highways," the commission reports in referring to the growing use of bill boards.

"Advertising signs are so numerous that drivers finally fail to notice them and when a danger sign appears either at a railroad crossing or at some other dangerous point, the fact often escapes him because of the multiplicity of signs that line the highway on both sides.

"Many of these signs are in themselves positive nuisances. They often carry the warning 'stop' in prominent letters followed by some additional directions.

"It is urged that legislation be provided which will remove from all public roads in the state all signs of an advertising or other nature which are not expressly useful for the purpose of facilitating and protecting travel."

The commission reports that plans for a few grade separations have been approved but that most of the cases investigated have been improved by the installation of gates or flagmen, automatic warnings or improvements in approaches or limits of vision.

"In many instances where dangerous conditions at crossings due to the presence of brush, trees, woods, or banks have been observed by members of the department, the facts are called to the attention of the proper authorities with the result that relief is often obtained at nominal expense," the commission adds.

Besides the accidents at grade crossings the commission reports 112 killed and 1,088 injured in other train accidents last year. The year before there were 129 killed and 1,642 injured in accidents that were not the result of grade crossings.

THUMB IN SOUP NOT SO BAD THIS TIME

ST. LOUIS, Mo. — On a "waiter's thumb" hangs \$500 for Ralph D. Coleman, Coleman, an official of the Cotton Belt railroad, is suing the Hotel Jefferson because a waiter spilled a bowl of hot soup on him "scalding him severely and causing him great humiliation." The hotel will base its defense on an attempt to show the waiter had his thumb in the soup and that it could not have been "scalding."

M. E. PASTOR DEAD

CHICAGO, Ill. — Dr. Julius A. Milfinger, district superintendent of the Chicago German Methodist Conference, died Friday night after an operation. For 41 years he had been active in the Methodist Episcopal church and had been pastor of the First and Second German Methodist Churches in Chicago as well as having served at Milwaukee, Aurora, Danville, Ills., Hammond, Ind., and other cities. He was born in Quincy Ills. in 1862.

CLOSE GREEN BAY ARMORY

GREEN BAY, Wis. — Condemned because it was held a peril to life, the Green Bay armory has been ordered closed by Building Inspector Marcel Lambert. Closing of the building has created consternation as it was extensively used. Meetings of the Green Bay battery will have to be dispensed with, and high school basketball practice will be interrupted.

LEGION DEFENDS GUARD

EAC CLAIR, Wis. — By a unanimous vote William C. Johnson post, American Legion, of this city, voiced an indignant protest against the bill pending before the Wisconsin legislature providing for abolition of the National guard.

FARMER ELEVATOR DESTROYED

TOWER CITY, N. D. — Fire of unknown origin last night destroyed the Farmer Elevator here and for a time threatened the Great Western elevator. The Great Western elevator caught fire several times, but the flames were extinguished without serious damage.

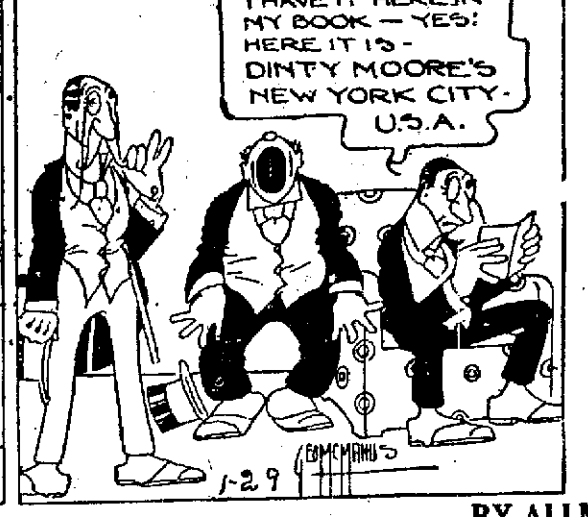

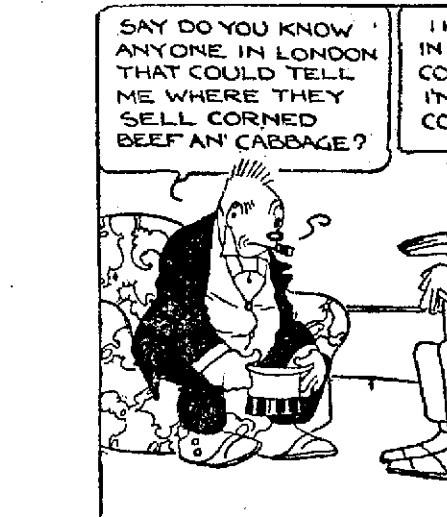

MEASLES WORRY KENOSHA

KENOSHA, Wis. — Kenosha health officials are alarmed over the spread of measles, there being 300 cases of the disease here. All are children and none has proved malignant.

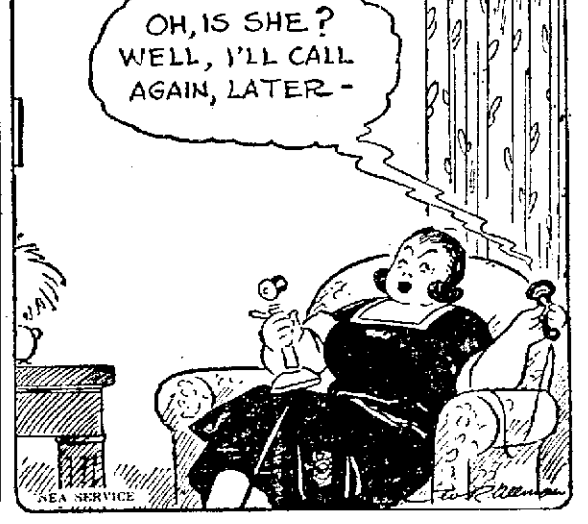

BAN ON FRENCH MUSIC

PARIS. — Germans who buy quantities of French music have canceled orders expressing regret that the political situation should make this move necessary.

Public Debate

THE SCHOOL SITE

Editor of The Tribune:

I have heard much through the Public Debate of everything a person can think of, but only two articles on the North Branch school. I should think people would write something on the school question as this is something very important to all of us. The school should be left on its present site for different reasons:

First, it has been located where it burned down for over 27 years.

Second, it is more centrally located where it is.

Third, to move it on George street makes it four blocks further for the children from the prairie to go to school which is not very nice for little children in cold weather.

Fourth, the George street site is no place for a school on account of the heavy traffic and children are liable to be killed. Little tots do not know enough to keep out of the road of automobiles and then some of our city aldermen wish to put the school on George street!

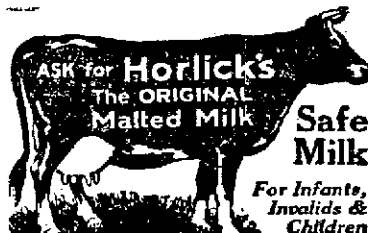

Some of our aldermen say it costs \$20,000 more to build the school on Wood street than on George street. I cannot understand that. They say that we will have to buy the entire block on Wood street and it will cost us \$15,000. If five lots on George street are big enough for a school, why, is not five lots big enough on Wood street. The school on George street is too close to the Franklin school, only four blocks, which does not seem necessary. As soon as the people on the prairie build up more houses another school would have to be built in years from now which would be an extra expense to the city. None of the taxpayers on the north end believe in the school being put on George street. They will all agree with me that if the school was needed 27 years ago when there were but a few houses here, it is needed now on its present site when the town is building up. I would like to hear from others through the Public Debate column on the school.

FATHER OF SIX.

NOISY FANS

Editor, Tribune:

Dear Sir: Some time ago there was more or less said about the vaude-

The Original Food-Drink for All Ages. Quick Lunch at Home, Office, or Fountain. Rich Milk, Malted Grain Extract, Powder, and Tablet Forms. Nourishing — No Cooking. Avoid Imitations and Substitutes.

ville. While I agree with the statement made that we were getting on an average poor staff, the point I want to make is this, that there seems no management in the theaters. One is continually annoyed by someone near talking personal affairs in a loud tone or else talking about the picture as it is screened. I have been an ardent fan but I am now so disgusted with the facts as stated that I stay at home. I wish our local managers would go to the movies in Minneapolis, Chicago, New York and such places and watch the ushers escort noisy persons out of their theaters. Why can't we have a little order here? We are not only paying to get in but to see and hear what is in your theaters. I really think we are entitled to have what we pay for. I thank you. A HAS BEEN FAN.

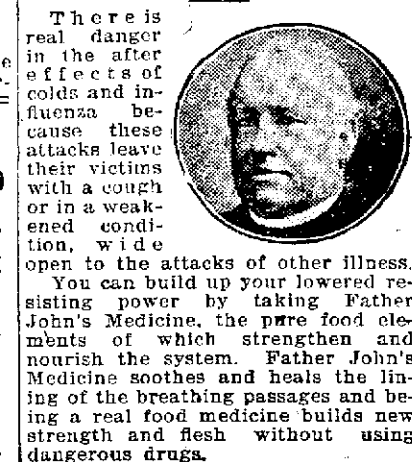

ANOTHER OPINION

Editor, Tribune:

Dear Sir: If anyone would suggest to go back to the fallow candle, the ox team or to the flint stones to start a fire, I too would say "Bug-house." We either progress or back up, we can't stand still very long. Perhaps our esteemed editorial writer doesn't believe in progress. Here is a synopsis of an equal month calendar which has been suggested to replace the present calendar made a long time before Columbus discovered America. All the months are exactly alike, every month has 28 days and just four weeks. Every week and month commences with Monday and ends with Sunday. Every date in all life months receives an absolutely fixed place in the four weeks. All holidays and all anniversaries would always fall on the same day of the week. A promissory note given for any number of weeks, months and years would come due on the same day of the week it was given.

This is accomplished by making New Year day on independent legal holiday. It is placed between the last of December and the first day of January, but is not included in any week or month. This leaves 364 days

The After Effects of Colds and Influenza

WHY CHILDREN ARE SICK IN WINTER

CHILDREN get sick in winter because they don't get the pure fresh air and outdoor exercise they need and their blood gets out of order. If you children are the least bit run down, thin in flesh and subject to colds, build them up with Gude's Pepto-Mangan. It will give them a new supply of rich, red blood, give them strength and vigor, and help them to resist disease.

Your druggist has Gude's in both liquid and tablet form. **Gude's Pepto-Mangan** Tonic and Blood Enricher

which are divided into thirteen months of exactly four weeks each. In Leap Year, another independent legal holiday, "Correction day" falls between the last day of Liberty and the first of March. The new month is called Liberty and is placed between February and March. Monday becomes the first day of the week, the first day of each half month, of each month and year.

In my opinion the advantage of such a change cannot be overestimated. There may be others that share this opinion. Very truly yours, FRANK G. ROTH.

CONDEMN FIRE STATION

ST. CLOUD, Minn. — Headquarters station of the St. Cloud fire department was condemned and ordered razed within 30 days. George H. Nettelin, state fire marshal, declared the building was in condition to collapse at any time, endangering the lives of a score of firemen always on duty there. The building houses most of the city's motor apparatus.

Don't Spoil Your Child's Hair By Washing It

When you wash your child's hair be careful what you use. Many soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Multisified coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and does anything else all at once. Two or three teaspoonfuls of Multisified in a cup of glass with a little warm water is all that is required. Simply moisten the hair with water, and rub the Multisified in. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dandruff. You can get Multisified Coconut Oil Shampoo at any drug store, and a few ounces will last everyone in the family for months. Be sure your druggist gives you Multisified.

PORTAGE SCHOOL BURNS

STEVENS POINT, Wis. — The second rural school in Portage county to be destroyed by fire in less than a month, was the Pleasant Valley school at Buena Vista. The loss was several thousand dollars. The other school recently burned was the Curmill school in Dewey.

What is Good Lens?

A "good" lens, in the photographic sense, is one which will give a perfectly clear distinct image, without distortion, and without "false images" when it is used with a large stop, and over a wide angle. Before, therefore, we are in a position to say whether a lens is "good" or not, we

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store and four ounces is all you will need. This simple remedy has never been known to fail.

A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole.

And Musterole won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain. Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds on the chest. Keep it handy for instant use. 35c and 65c. Jars and tubes; hospital size, \$3.00. Better than a mustard plaster.

must know at what aperture it will work, and what angle it includes. It is evident, therefore, that something more than a mere capacity to give sharp pictures is necessary. — Fond du Lac Reporter.

Electric Giant and Pigmy

The very largest and the very smallest electric incandescent lamps

were seen during the Pittsburgh electrical exposition. The largest lamp, the monster 30,000-watt, 60,000-candlepower affair constructed by the General Electric company for use in movie studios, was ranged alongside a tiny little bulb of just half a watt, a lamp that is used in medical instruments for examining organs inside the human body.
